

FORMULAS PROVIDED BY WIC

WIC encourages, educates and supports participants to breastfeed their infants. WIC invites breastfeeding referrals for your patients if needed. If necessary, WIC can provide the following formulas when exclusive breastfeeding is not possible.

CONTRACT FORMULAS – FORMULAS ISSUED WITHOUT PRESCRIPTION

The California WIC program contracts with Mead Johnson to provide Enfamil formulas to our participants.

FORMULAS	INDICATION/DIAGNOSIS
Enfamil Infant 12.5 oz powder	Standard infant formula for full term, healthy babies
Enfamil Gentlease 12.4 oz powder	Recommended for fussy, irritable, gassy babies
Enfamil ProSobee 12.9 oz powder	Soy based formula if non-cow milk formula preferred
Enfamil AR 12.9 oz powder	Recommended for babies with excess spit up
Enfamil Reguline 12.4 oz powder	Recommended for babies with constipation, promotes soft stools with the addition of 2 prebiotics and partially broken down cow's milk protein

Continue on to the next page to find information on our therapeutic formulas.

Therapeutic Formulas

The following formulas are specialized for medical conditions such as failure to thrive and cow's milk protein allergies. We must have a prescription/referral signed by a MD, NP or PA with a valid medical condition.

INFANTS	INDICATION(S)/DIAGNOSIS
Enfamil NeuroPro EnfaCare 12.8 oz or 13.6 oz powder	Prematurity or low birth weight
Nutramigen 13 fl oz concentrate	Cow's milk and soy protein allergies, managing colic due to cow's milk protein allergy
Nutramigen with Enflora LGG 12.6 oz powder	Cow's milk and soy protein allergies, in addition to other allergies; GERD and malabsorption
Similac NeoSure 12.8 oz powder	Prematurity and designed to be used as a preterm post-discharge formula
Similac Alimentum 16 oz powder	Severe food allergies, sensitivity to intact protein, protein maldigestion, or fat malabsorption
CHILDREN 1 YEAR AND OLDER	INDICATION(S)/DIAGNOSIS
PediaSure Vanilla 8 fl oz Ready-to-Feed	Provides additional calories for children with food restrictions, additional dietary support for children with lactose and gluten intolerance. WIC can issue up to 3 bottles/day. Please note: PediaSure cannot be provided for 'picky eating' since it is not a medical diagnosis. If you have a patient who may be considered a "picky eater" you may refer them to one of our registered dietitians or degreed nutritionists who are able to provided individualized nutrition counseling to improve their intake.
